Dear Mel,

I know you have a things or a constraint -a something.

But need it extend to denial of the simple courtesy of forwarding mail from your listeners?

How do I know?

From the Pyne office. They have forwarded mail first sent to you.

Pretty petty.

By the way, I watched the Burke Show twice. It is not good. You and hem need help! If you get any competition, and I know of one in the planning stages, you'll feel it. Your audience in this area (from whom I hear) is not a happy one, merely a captive one. They are less happy with what is opposite.

Sincerely,

Harold Weisberg
